

Set up a KBPublisher view

There are 3 different views for KBPublisher, Left Menu, Browsable and Intranet. Left Menu is set by default. See below.

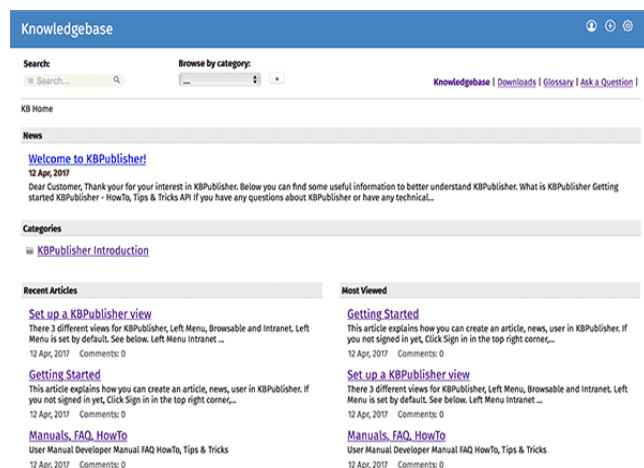

Left Menu

Intranet

Browsable

To change view

- Sign in to the knowledgebase

- Go the **Admin Area**
- Click on the **Settings** menu and choose the **Public Area -> Common** tab
- Select required view in the **View format** field
- For Left Menu and Intranet views you can specify which menu type to use, set **Left Menu Type**
- Click **Save** to save the changes
- Go to **Public Area** to see/test your new settings

To customize view

See below articles for details

- [Change KBPublisher Look and Feel](#)
- [Customizing article display options](#)
- [Customizing Public Area](#)
